“Amy Lansky leads us on an inspiring and thought-provoking romp through a panoply of portals to our higher dimensional selves. She’s an entertaining travel guide to the minds of great scientists, mystics, and philosophers as she argues convincingly that we really can bring the improbable futures we want for ourselves into reality. Let her alter your consciousness and take you higher!” —**Jane Katra, PhD**, author of *The Heart of the Mind* and *Miracles of Mind*

“Amy Lansky’s new book is an inspiring and far-ranging investigation of contemporary consciousness research.”
—**Russell Targ**, author of *Limitless Mind*

“This is a delightful book. Well written and intensely packed with interesting information.” —**Dean Radin, PhD**, author of *The Conscious Universe* and *Entangled Minds*

“Though the topic is vast, Amy has created a work that is accessible and engaging. Using examples from her own life and experiences, she uses the narrative to deftly guide the reader through the worlds of unexplained phenomena, alternative medicine, and meditative practice.” —**Judy Kitt**, President, Foundation for Mind-Being Research

“Are the many popular books on shaping reality just wish-fulfillment? Amy Lansky has written the most well-grounded, reality-based book on the subject that anyone could ask for. She makes scientific and philosophical concepts enjoyable and easy for anyone to understand. And the icing on this wonderful cake: she lays out a program of simple but extremely well-focused meditation exercises through which any reader can train themselves to connect more fully with their higher consciousness, and truly change their own life and help to influence the world around them. Since reading this book and beginning the practices I have already noticed an increase in synchronicities in my life, and a greater sense of being assisted in the life goals on which I’m focusing. —**Amazon Reviewer**
